

*The Letters of the Holy Prophet (S.A.W.S): A
Comparative Study*

ABSTRACT

Dr. Syed Salman Nadawi

What was the style adopted by the Holy Prophet (S.A.W.S) in his letters to the emperors of that time? If we have a comparative look on these letters, it seems that they have some phrases common and some different. The reason of this variation is due to different circumstances of the addressees. These letters were written in the Madinan period in which several battles took place resulting in the triumph of the Muslims over pagans of Makkah. The opponents of the Holy Prophet (S.A.W.S) had ascertained that they cannot become dominant over the Muslims through the battles. In this article this background has also been taken into account.
