Dear Ammar Nasir Sahib,

I saw the article , " Sarmaayadarana ya sciencee ilmiyat. Aik ta, aaruf"" in your ' is maah kaa intikhab'. I was shocked and when I say I was shocked, this is an understatement. This article is so unreasonable, biased, absurd and senseless that it is not even worth contradicting. Perhaps first time in the history, knowledge has been torn apart on the basis of capitalism and non capitalism. Science and technology and the concepts of development and equality have been discarded as alien to Islam.

But the real shock is that Al Shareea has published this piece of Dogmatism. It proves that it is impossible to get rid of what one 'learns' in madrasa!!! On the one hand, you are publishing articles of Mahmood Ghazi and students of Javed Ghamdi and on the other hand such samples of obscurity are also being dished out!

That you published it because you believe in freedom of expression will be a farce. In that case you should accommodate view point of barailvees ,sheea and qadyanees also! This unfortunate article can be rejoined but that will be sheer wastage of time.

Your brother in shock,
Muhammad Izhar ul Haq

سوال: فقہاء ایسے بہت سے فرقوں کو مسلمان ہی شمار کرتے ہیں جن کے عقائد تو قطعیات اسلام کے خلاف ہوتے
