

THE KARACHI DECLARATION

INTERNATIONAL CONFERENCE ON RELIGIOUS TOLERANCE AND INTERFAITH HARMONY

The participants of the international conference on Religious Tolerance and Interfaith Harmony unanimously passed the following resolution:

That all the Universities and Scholars of Pakistan are fully aware of the responsibilities that they have to work earnestly for Harmony and Religious Tolerance.

That it is the responsibility of all the universities to publicize the literature of different sects, knowledge and culture. They have to organize events, conferences and seminars based on Intra/Inter Faith dialogue and harmony frequently so that harmony and tolerance should prevail among them.

That the participants of the conference deeply felt that it is basically the religious, which unite societies and shape their culture, therefore, by spreading/promoting religious learning vices like hatred, all biases, bigotry, and terrorism could be combat and eradicated effectively.

That a special cell may be established in every university in which religious books and scriptures of all the religious and faiths may be provided for easy dissemination of the religious knowledge of different faiths.

That the participants recommend for establishment of a permanent institution at government level, which should work continuously for the promotion of Religious Tolerance and Intra/Inter Faith Harmony. Such institution is to be independent from any political or religious learnings so that the cause of Intra/Inter Faith harmony should make advances.
